

Buddhist Iconography in Thailand : vol.3

Discover Buddhism in Thailand through photos. This is a third and the last volume of its series. The pictorial book presents the visual context which contains more than 100 colour photographs of rich variety of architecture and monumental temples; Buddha statues; paintings; and sacred objects represented Buddhism in Thailand. The depictions of the Buddha images and temple architecture vary widely across the country, revealing regional differences and brilliant expression in cultural/artistic symbolism of the Thais since ancient times. The art and iconography of Thai Buddhism were influenced by Hindu beliefs, just as it did in Cambodia, but less declined with more modern temples. Therefore it is common to see statues of Hindu deities in most temples around the country. When one travels to Buddhist temples far and wide, one can get insight into the culture and stories of Thai Buddhism which may be different to their neighbours who have the same Theravada tradition. All photos in the book can be printed and delivered anywhere. The largest size is 24x100 inch. Please go to <https://www.facebook.com/Mind.Citta/> for enquiry.
