Andy Adler has had one hell of a life. Abused by his father and abandoned by every lover hes ever had. Andys brother Eric has been there through it all, keeping him sane, safe, and cared for. After almost dying at the hands of his own father, Andy is shocked when the lovely scent of his mate pushes through the haze of pain. Eric doesnt trust this wolf trying to take charge of his brothers care and is ready to do battle once again for his brother. The man, Jackson Burke, prevails and refuses to leave his mates side. Andy, once healed, feels as if hes lost in a dream. His mate is the most attractive and attentive man hes ever met. Could this be his forever? Could this be the love he always believed existed? Alas, dreams are often shattered and this one is no different. Can Jackson Burke fix what he has broken or are they both destined for only loneliness? Jackson Burke is a good man, but doesnt often think about the consequences of his actions. He thought that the hardest part of his mating with Andy Adler was dealing with Andys over protective twin brother Eric, a large and menacing wolf with only his brothers care in mind, but that is only the beginning of his trials. The truth comes out and Jackson acts rashly and jeopardizes his mating and the very nearly his life. Can Jackson overcome his own actions and his own prejudices? His future happiness depends on it.
