Jeremy Jenkins is a pharmacist living a nightmare. America has made serial killing provisionally legal. What was once a crime is now a game. Juvenile delinquent Reapkids dressed as history's deadliest murderers roam the streets causing chaos. Cannibal Godless Jack Cavanagh is on every morning show. And Jeremy's girlfriend Cass, the love of his life, can't get enough of it. Could be worse. Creatures from another dimension could be infiltrating ours getting our women pregnant. He could live with the guilt of being history's most prolific serial killer. The fate of a world not worth saving could rest on his broad shoulders. Maybe they are. Maybe he is. Maybe it does.
