

Images (Multiage Differentiated Curriculum for Grades 6-8) (Multiage Curriculum - Middle School)

Images, a book in the Multiage Differentiated Curriculum Kit for Grades 6-8, asks students three main questions: What is your image? What image do you want to project? and Can you change or manipulate your image? The books in Prufrocks new Multiage Differentiated Curriculum Kits employ a differentiated, integrated curriculum based on broad themes. This all-in-one curriculum helps teachers save planning time, ensure compliance with national standards, and most importantly, pique their students natural excitement and interest in discovery. By participating in the wide variety of activities in the Multiage Differentiated Curriculum Kit for Grades 6-8, students will discover the images around them and gain a lifelong desire to learn. In addition to personal images, photographic images are studied in detail, both historically and scientifically. Also, propaganda is examined through visual and written images. Students will go back in time and explore images that were popular during different time periods. This investigation will require students to research the advancements in technology, as well as how these advancements impacted popular images in history. Images, along with the other books in the Multiage Differentiated Curriculum Kit for Grades 6-8 (Ages, Conflicts, Connections, and Powers), makes teaching advanced learners easier! This curriculum unit makes use of the following great childrens literature books: Alices Adventures in Wonderland by Lewis Carroll, unabridged; Photos That Changed the World by Peter Stepan; and Carver: A Life in Poems by Marilyn Nelson.
