

# The Slippery Year: A Meditation on Happily Ever After

Melanie Gideon's hilarious memoir is a disarmingly honest take on marriage and motherhood by a woman who realized she was sleepwalking through life and decided she needed to do something about it. The Slippery Year chronicles her struggle to rediscover meaning and pleasure in life while navigating the comical ups and downs of cohabiting with a husband, a child, and a dog: mattress wars with her snoring mate, the psychological minefield of the school carpool line, and sending her son to sleep-away camp for the first time. Gideon manages to be laugh-out-loud funny while also reflecting beautifully and movingly on her quest to appreciate what she has.

And over the years, Lux finds herself increasingly torn between her two lives. . . the Moon and the memoir *The Slippery Year: A Meditation on Happily Ever After*. *The Slippery Year: A Meditation on Happily Ever After* Paperback August 10, 2010.
